

Assignment (Task1)

UNSW Digital platform to Bridge the educational gap

PURPOSE:

Develop a digital platform to enhance education and career opportunities for low-SES students, supporting UNSW's social impact goals and achieving 25% low-SES student intake by 2027.

Scope Statement:

The project shall deliver a digital platform to enhance educational access and career opportunities for high school students from low-socioeconomic backgrounds. The platform will include a resource repository, mentorship programs, community engagement tools, career exploration events, and progress tracking features. It shall be delivered within one year, commencing 1st July 2024, and completed under a budget of \$800,000. The scope includes project management, software design and development, cloud storage for data collection, pilot testing with selected high schools, user training, and performance reports. Initial implementation will focus on a pilot set of high schools.
